A Happy Christmas to you all from the Neighbourhood Plan team

No news to bore you with at this time. But one request.

I expect many will be taking walks around the village over Christmas. If you do, drop us a line, or a photo, showing what you like about where you go.

We need to create a development limit for the village. We cant just draw one on a map, it has to be justified. It can be justified by the National and SSDC policies about conserving landscapes, views, wild areas and historically important areas.

Many of you have already told us about some of these—many thanks— but the more we have the better.

The rules about development now are that anyone can build anywhere unless there is good reason not to. We need to develop these reasons. This will direct development to areas where it has the least impact.

It would be good to get all these thoughts onto a map before the next Farmers market so that we can present our first attempt at a development boundary then.

Please help. Enjoy your walks but remember us as you do.

We really value all your support

Andrew
